总结资料来源

Data Source Summary

- CM县FS、YF项目中心的出访记录表

CM County FS and YF Project Center Outreach Forms

- FS: 116
- YF: 118

- 两镇完成基线（08年春）、6个月随访（08年秋）、12个月随访（09年春末）问卷调查

Surveys completed in both towns at baseline (Spring '08), 6 months (Fall '08), and 12 months (Spring '09)

- FS: 76, 79, 74
- YF: 82, 75, 77

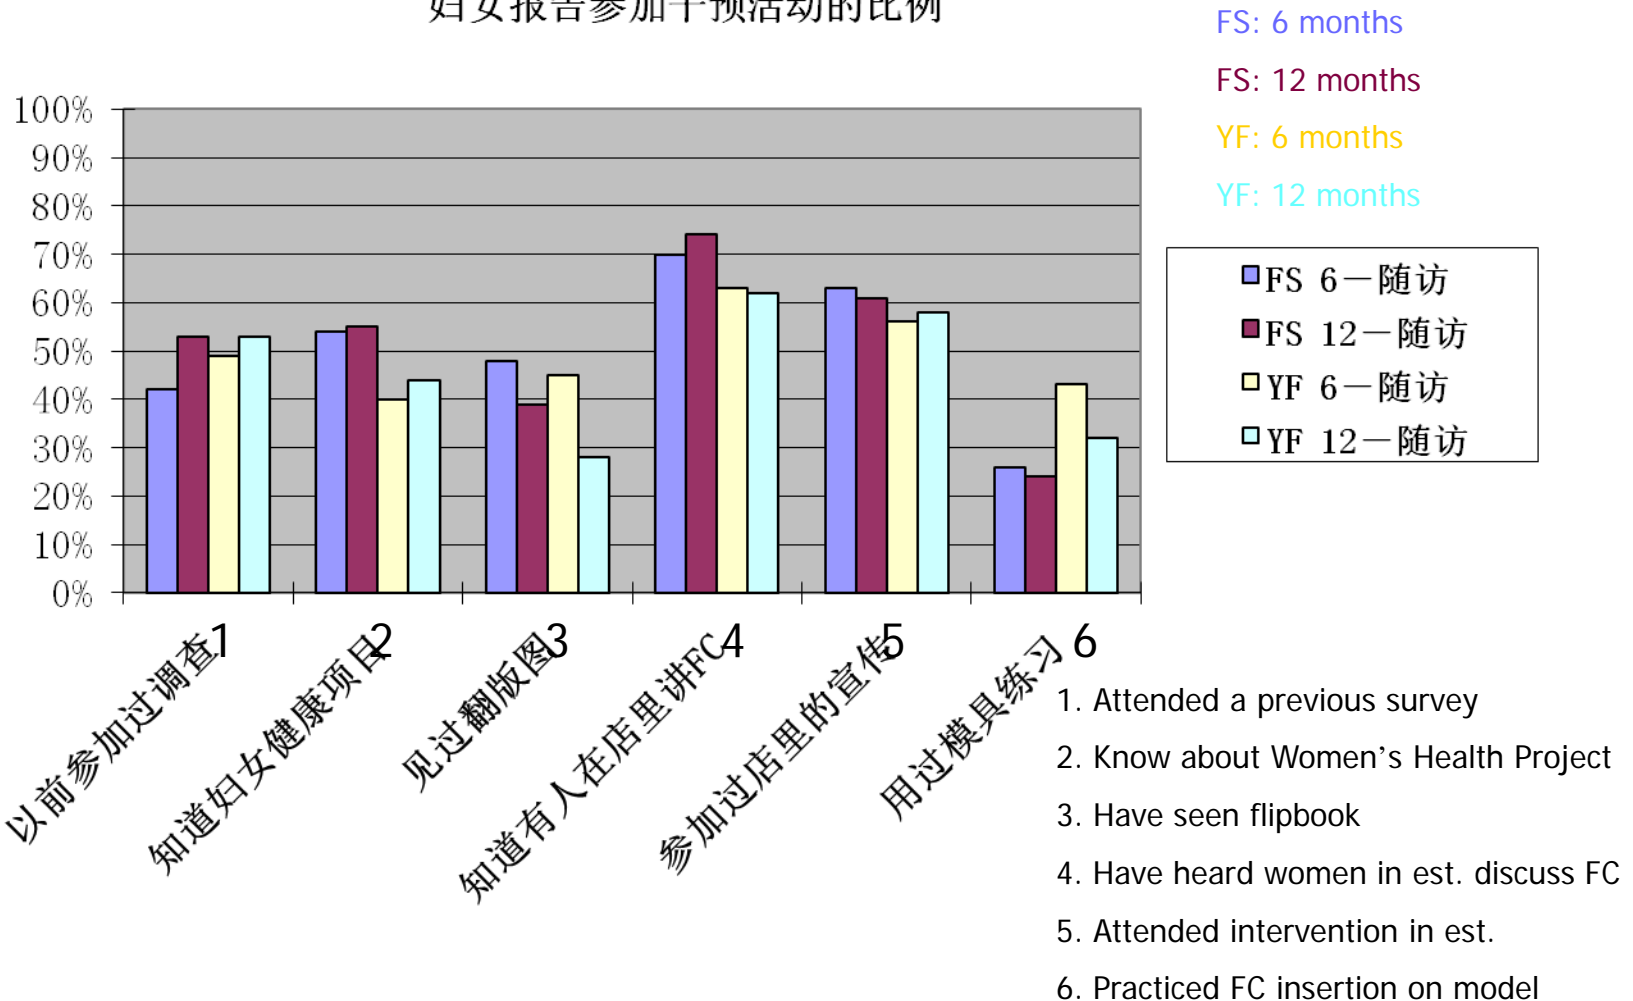

出访活动 Outreach Activities

- FS (town #1)
 - 女用安全套 (FC delivered): 485
 - 男用安全套 (MC delivered): 5,447
 - 宣传材料 (Educ. materials): 112
- 项目两个阶段出访次数相近
of outreach visits during two intervention stages are nearly the same: (60, 56)
- 平均每家场所出访次数
Average outreach visits to each establishment: 9 (6-14)
- 三类场所的平均出访次数差异不大
Average number of visits to each type of establishment almost the same
- YF (town #2)
 - 333
 - 3710
 - 198
- First stage outreach visits: 43
- Second stage outreach visits: 75
- 6次 (2-11次): 场所之间差别较大
Significant difference in number of visits to different establishments. Average visits 6 times, ranging from 2-11.
- 发廊类场所平均出访次数 (2-7) 低于出租屋 (3-11) Average number of visits to salons (2-7) lower than to boarding houses (3-11)

妇女报告的干预活动参加情况

Women's Reported Participation in Intervention Activities

妇女报告参加干预活动的比例

妇女的基本情况： 基线调查

Basic characteristics of women: Baseline Survey

- FS: Average age 26
 - Li minority: 46%
 - Hainan Women: 62%
 - Not married: 58%
 - Completed middle school education or higher: 63%
- YF: Average age 27
 - 59%, higher than FS
 - 77%
 - 62%
 - 48%

There are differences between survey participants in two towns

妇女相关性行为：基线调查

Women's Sexual Activity: Baseline Survey

- **有主要性伴的比例：** FS 较低，**49%比65%**

Percent of participants who have a primary partner: Less in FS, 49% compared to YF, 65%.

- **与主要性伴的性行为平均次数：** 两镇妇女相近

Number of times had sex with primary partner: similar in both towns

- **有客人的比例：** FS 较高，**84%比58%**

Percent that have paying partners: higher in FS, 84% compared to YF, 58%

- **与客人的性行为平均次数：** FS 较高

Average times had sex with paying partner: Higher in FS

- **30天中妇女与客人的性行为次数至少是与主要性伴性行为次数的2倍** Average number of times (within 30 days) women had sex with paying partners was twice as high as number of times they had sex with primary partners.

妇女相关性行为：比较

Women's Sexual Activity: Comparison

- 过去30天平均性伴人数：

Average number of sexual partners in the past 30 days:

- FS妇女高于YF；

FS Women have had more sex partners than YF women;

- 中年妇女高于青年妇女

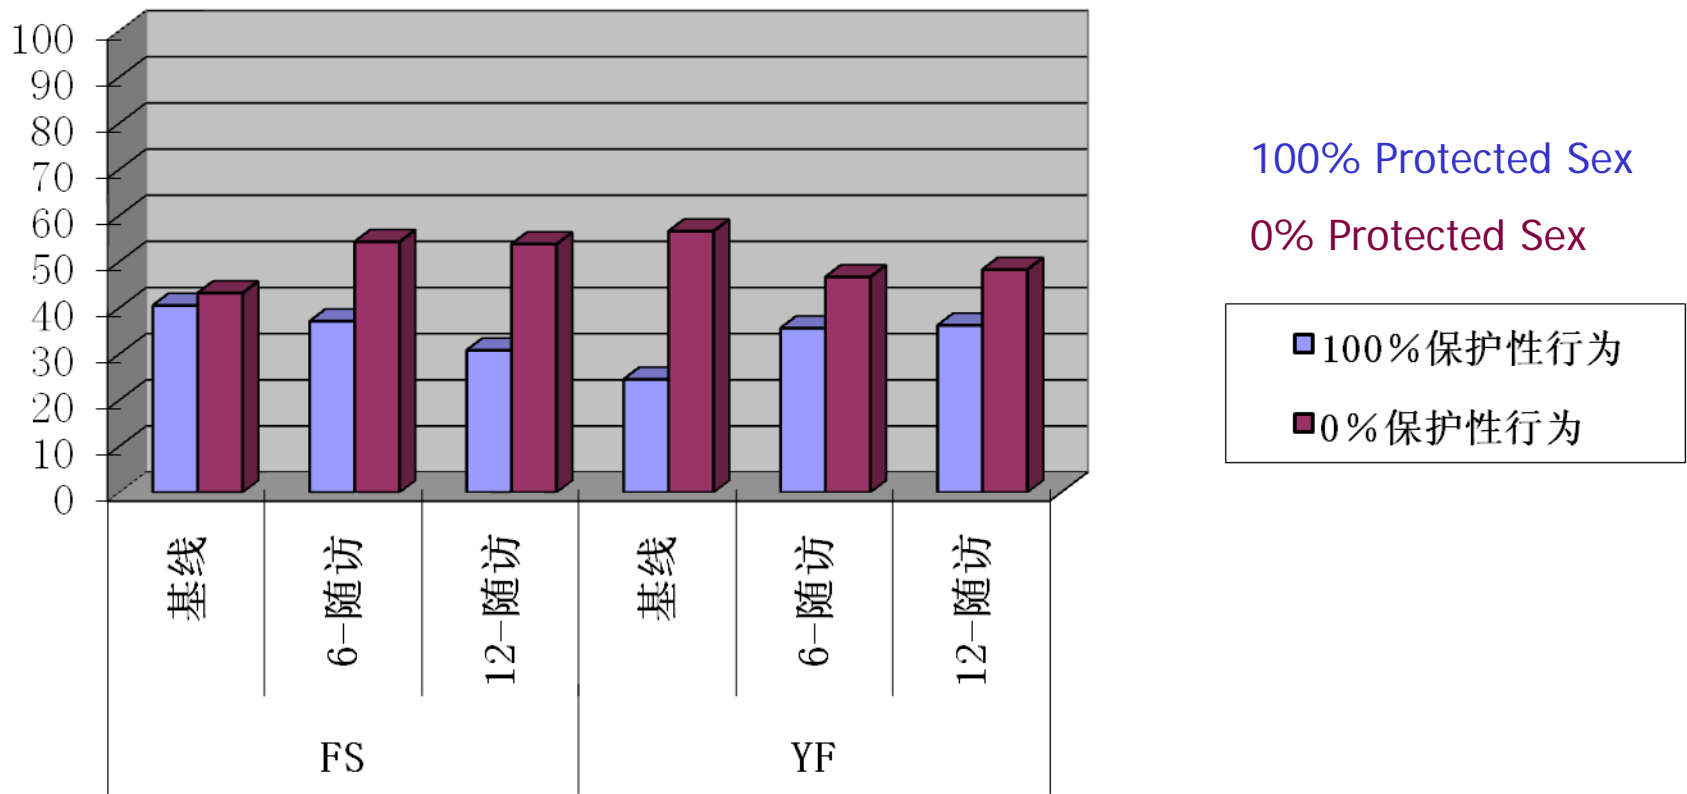

Middle aged women have had more partners than young women

过去三十天：与主要性伴有保护性行为

Past 30 days: Protected sex with primary partner

主要性伴：保护性行为比例（%）

Primary Partner: Rate of protected sex (%)

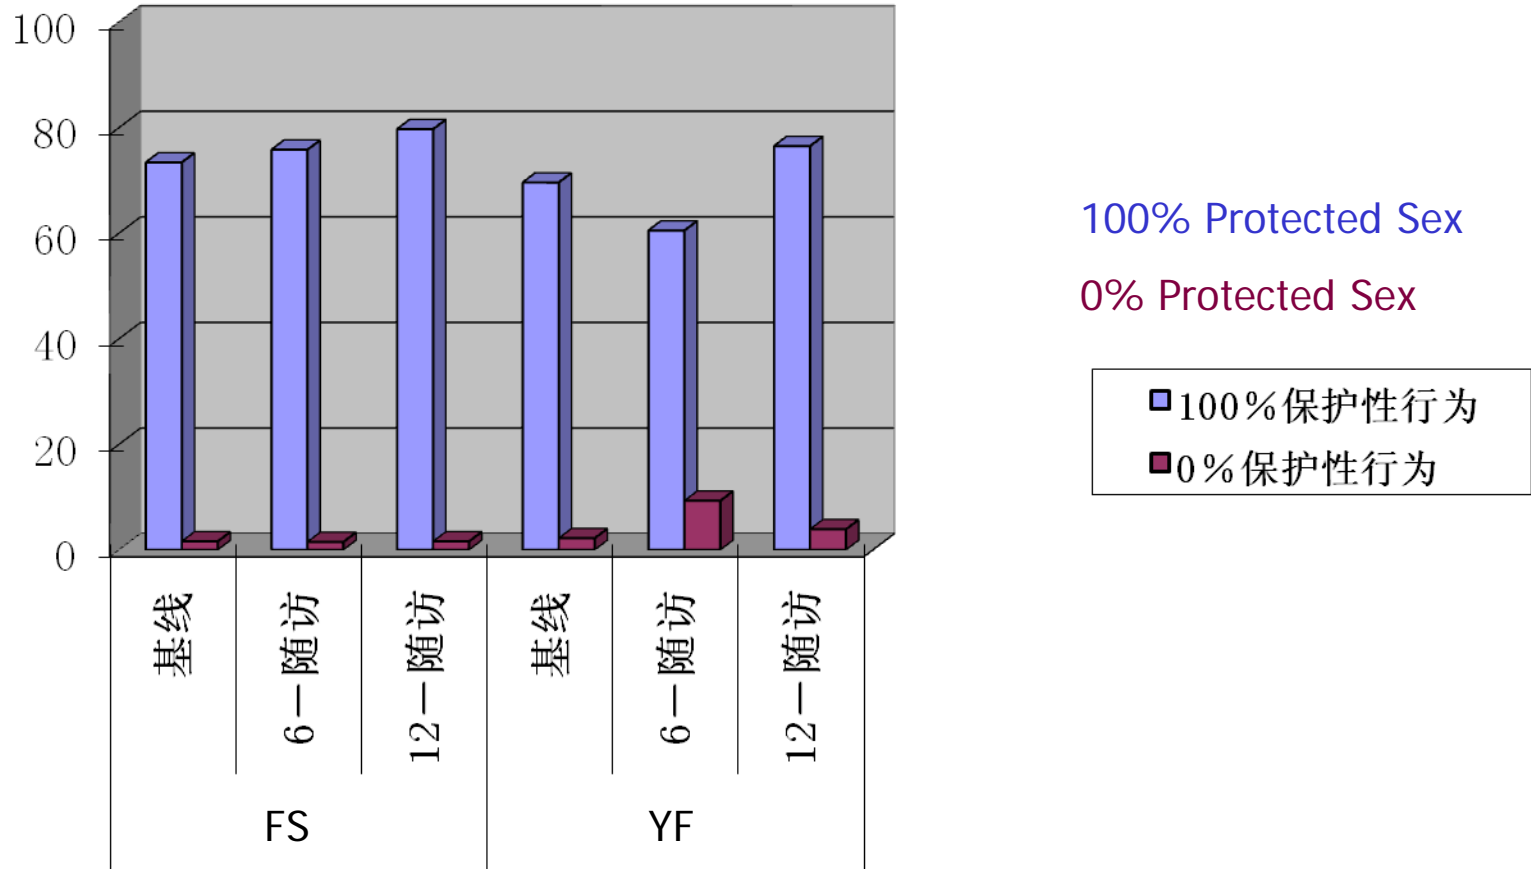

过去30天与客人：保护性行为比例

Past 30 days: Rates of protected sex with clients

客人：保护性性行为比例(%)

Clients: Rates of protected sex (%)

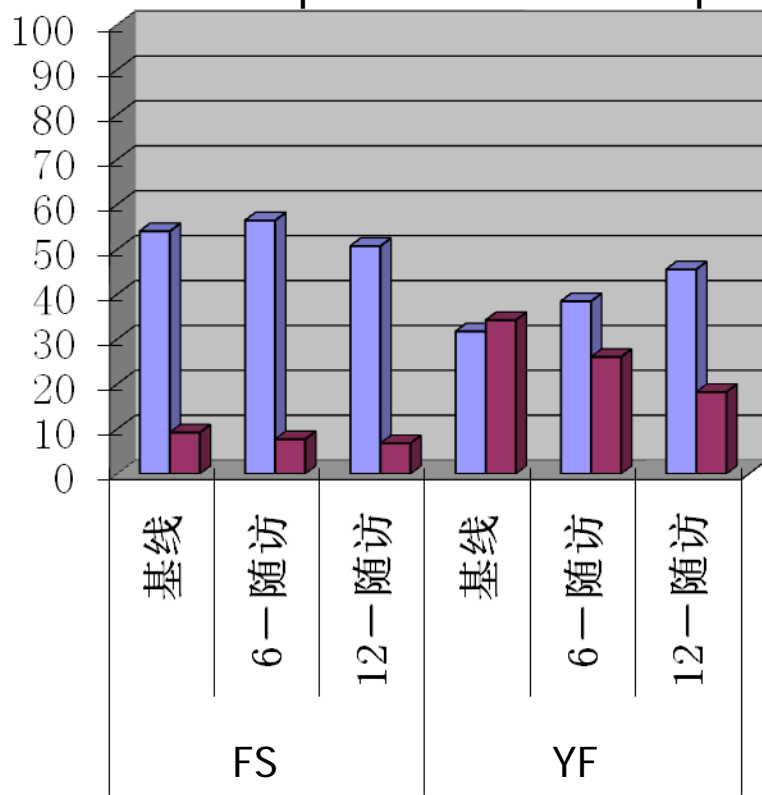

过去30天所有性伴：有保护的性行为

Past 30 days: Protected sex with all partners

过去30天所有性伴：保护性行为比例（%）

All partners: Rates of protected sex in past 30 days (%)

Used condoms with all partners

Didn't use condoms with any partners

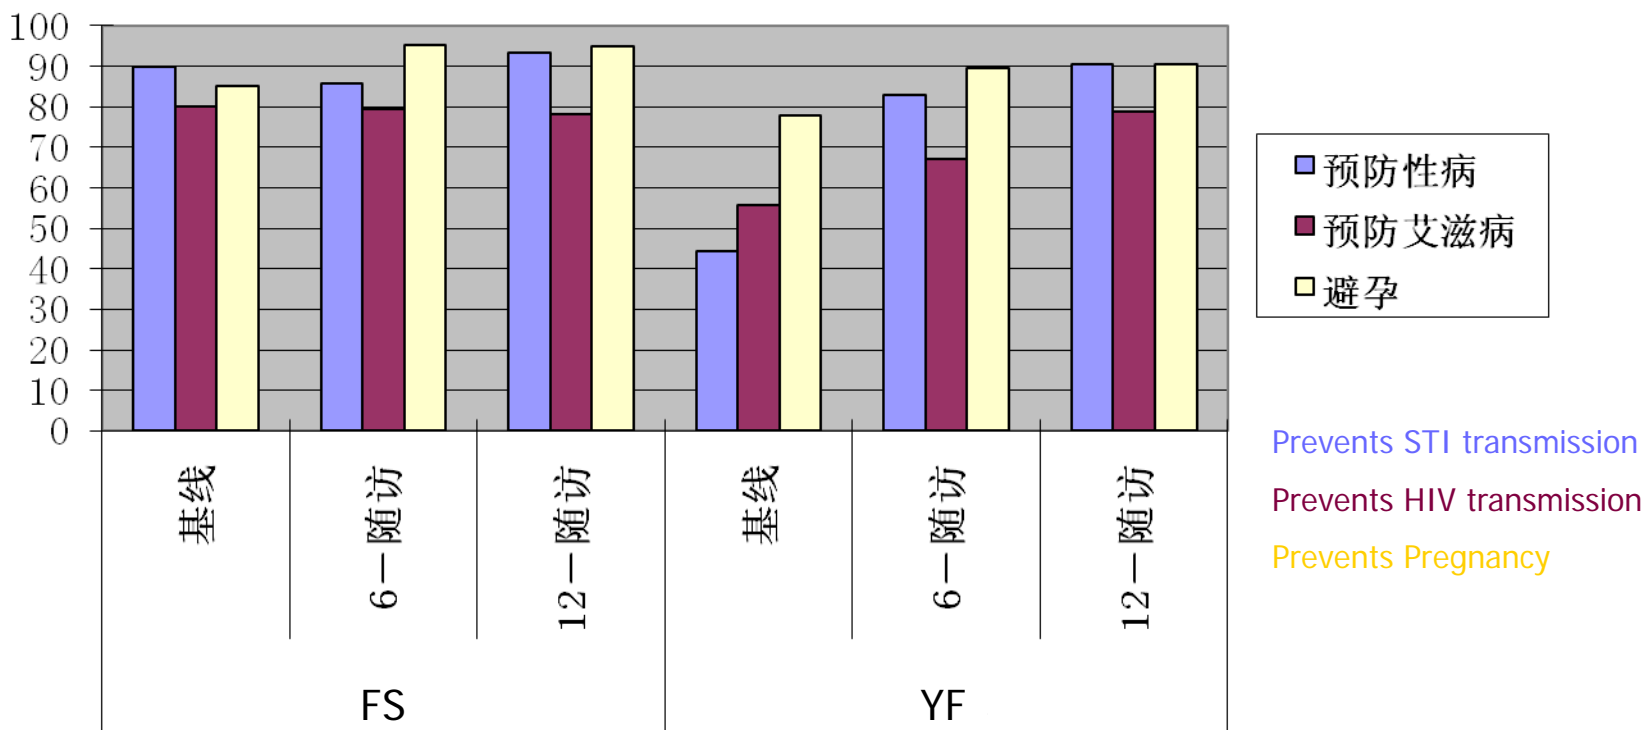

■ 所有性伴全部使用安全套

■ 所有性伴全部不使用安全套

女用安全套教育 FC Education

女用安全套预防知识正确率 (%)
(分母为听说过女用安全套的妇女)

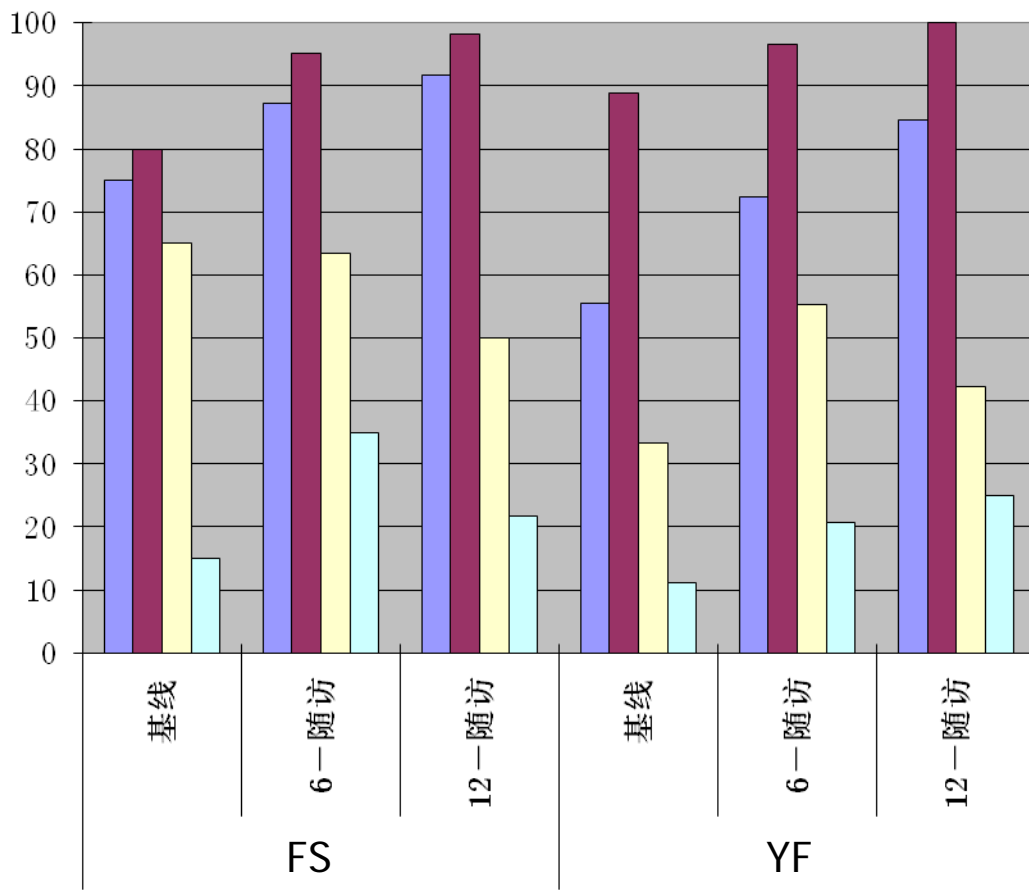

% Correct Responses on FC Prevention Knowledge (among women who heard of FC)

女用安全套教育 FC Education

女用安全套使用知识正确率 (%)
(分母是听说过女用安全套的妇女)

% Correct Responses on FC Use Knowledge
(among women who heard of FC)

- 男女套效果相同
- 都是一次性产品
- 润滑剂解决使用的问题
- 男女套不能同时用

MC and FC Efficacy Same

Both are one-use products

Lubrication can help solve FC use problems

MC and FC shouldn't be used together

使用女用安全套的情况

Characteristics of FC users

- 至少有**1/5的妇女**将女用安全套做为备用或常用
At least 1/5 of women report that FC is a product they use or frequently use by 12-month.

女用使用者年龄特点 FC Users Age Characteristics

■ FS:

- 6 month survey: 2人使用超过10次（青年、中年各一人） 2 people used FC more than 10 times (one young, one middle-aged woman)
- 12 month survey: 使用多于10次是中年妇女（6人） 6 women who used FC more than 10 times were middle-aged women

■ YF:

- 6 moth survey: 有3个年轻妇女报告使用超过10次； 3 young women reported using FC more than 10 times
- 12 month survey: 没有人报告使用超过10次
No one reported using FC more than 10 times

女用安全套使用者场所特征

FC Users Characteristics by Establishment

- FS 在听说过女用安全套的出租屋妇女中，一半以上妇女都用过；

In FS among women from boarding houses who heard of FC, more than 1/2 used it

- YF 有**1/3**出租屋妇女用过

In YF 1/3 of boarding house women used FC

小结 Summary:

- **两镇妇女的特征不相同**
Characteristics of women in two towns are different
- **两镇的干预工作“起点”不相同**
'Launch' of intervention in two towns was different
- **两镇的干预工作实施也略有不同**
Intervention implementation in the two towns was slightly different
- **妇女的性行为特征不同：青年与中年比较**
There are differences among women's sexual behavior: Comparisons between younger and older women
- **保护性性行为比例：两镇不同**
Rates of protected sex: Different in two towns
- **女用安全套知识、使用情况**
FC Knowledge and Use improved over time

谢谢大家!

Thank you everyone!
